SKILLS

Programming: Python, Java, C++, C, SQL, Problem Solving, Internet of Things

Tools: PyCharm, Jupyter Notebooks, Git, Arduino IDE, OpenAI, Supabase, Netlify

Frameworks/Packages: TensorFlow, Pandas, NumPy, Matplotlib, Seaborn, scikit-learn, PyTorch, OpenCV, Flask

AI/ML Domains: Machine Learning, Deep Learning, Computer Vision, Natural Language Processing (NLP), Generative AI, Cloud Computing (Azure)

EDUCATION

JIS College of Engineering

Kalyani, India

Bachelors of Technology in Computer Science Engineering with specialization in AI & ML

Expected Graduation- June 2027

- o **Concentrations:** Artificial Intelligence, Machine Learning, Data Science

- o **SGPA:** 8.28/8.09/7.89/8.18/7.93

- o **Related Coursework:** Data Structures & Algorithms, Compiler Design, Operating Systems, Machine Learning, Computer Networks, DBMS, Linear Algebra, Probability & Statistics, Mathematics

12th (ISC): Authpur National Model School (2023) - Marks: 69.25%

10th (ICSE): Authpur National Model School (2021) - Marks: 79.80%

EXPERIENCE

SAP Certified – Back-End Developer (ABAP Cloud)

Remote

Global Certification – SAP SE

June 2026

- Earned SAP's global certification for Back-End Developer – ABAP Cloud through a hands-on, task-based proctored exam.
- Completed all nine real-world ABAP Cloud development tasks, demonstrating practical back-end development proficiency on the SAP Business Technology Platform.

Confitech Solutions Pvt. Ltd.

Remote

AI/ML Engineer - Intern

17th May, 2025- 18th Aug, 2025

- Developed and maintained AI/ML applications using Python and Flask.
- Implemented Generative AI (GenAI) solutions using OpenAI and Azure.
- Integrated APIs and collaborated with the backend team to ensure seamless data flow.

PROJECTS AND PATENTS

Arachnid Bio-Inspired Spider (Patent)

Patent No. 202531071175 A

AI Developer & Circuit Connection

2025 - 1st August

2025

>> Implemented computer vision algorithms using OpenCV and deep learning to track natural habitat of animals having risk of extinction.

>>Cleaning collected data to find out patterns and retraining the model for better accuracy.

>> Configuring smooth connections between the IoT devices (Arduino Mega, Raspberry Pi4, Pi cam).

IntelliEat Monitoring System (Project)

Team Lead

Aug, 2024 –

Present

>> Is an innovative IoT-enabled solution designed to track and analyze eating behaviors using a smart plate and utensils

>> Equipped with sensors, the system monitors food intake, chewing speed, and meal duration.

>> Data collected is analyzed by AI algorithms to detect patterns associated with eating disorders such as anorexia and bulimia.

ACTIVITIES AND LEADERSHIP

AICTE Idea Lab Ambassador

Kalyani, India

>>Representing AICTE Idea Lab — promoting student innovation through workshops and events.

May 2024 – Present

>>IoT and 3D modelling Lead

The Risers

Kalyani, India

Co-founder and member

December 2023 – Present

InnovCon 2025

Kalyani, India

>>Event Organiser

27 Feb 2025 – 28 Feb

2025

>> Organized and led a 12-hour 3D Modelling Hackathon, fostering student engagement in 3D design and enabling participants to explore real-world applications of 3D modelling and usage.

CERTIFICATIONS

Nptel Online Certification (12 weeks)

Remote

Natural Language Processing

Jan, 2026 –April, 2026

Score – 57%

Nptel Online Certification (12 weeks)

Remote
